ABOUT US

ESTABLISHED IN 1994

M&T Fire and Safety, Inc., located in Volga, South Dakota is a family-owned business that strives for friendly and efficient service at the absolute best price. We proudly serve the Dakotas, Iowa and Minnesota.

QUALITY FIREFIGHTING PRODUCTS

We provide a comprehensive selection of firefighting equipment, from fire extinguishers to fire trucks and everything in between, from the brands you know and trust.

APPARATUS & BRUSH TRUCKS

We are an authorized Toyne, Inc. fire apparatus dealer. We partner with the best in the region for the brush trucks we build in-house.

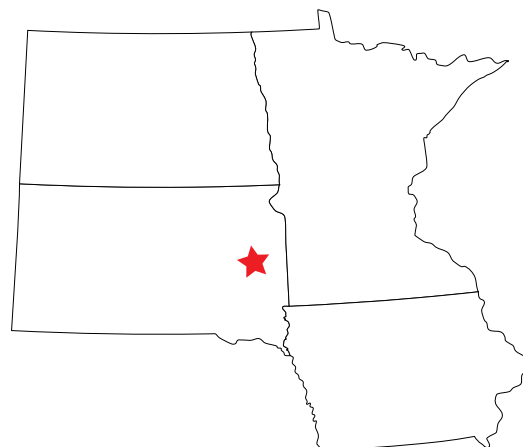

FIRE RESCUE EQUIPMENT

Lives depend on the tools you use which is why we represent trusted sources in the industry.

Our factory-trained service technicians are available for on-site service of rescue tools and air compressors and SCBA and pump testing.

YOUR SAFETY IS OUR FIRST PRIORITY

Meeting your highest expectations in the sale and service of quality firefighting equipment and safety products is our business.

Being a leader in this industry means providing the most aggressive tools to attack a fire. Armed with Toyne Tailored features and built in the USA, Toyne fire trucks are designed to be a firefighter's ultimate weapon. Reliable, durable and setting the highest safety standards for every community's heroes, you can count on their apparatus to perform no matter what the call requires.

Backed by an unwavering warranty and stall built, piece by piece, a Toyne truck is made to survive the harshest environments. Their work is tailored to create the features you demand. Bring your dream to our team and together we will create an apparatus of the highest caliber.

No two fire departments have exactly the same requirements. Toyne provides a wide range of options that are then further tailored to meet your specific needs.

AERIAL

No task is out of reach with a Toyne Aerial. A step above the rest, our Aerial fire trucks provide flexibility, stability and customizable options, and ensure safety in every situation.

PUMPER

Accessibility to the scene and to your tools is everything when lives are on the line. Our Pumpers integrate easy access with streamlined design options that give you the flexibility to meet your needs.

PUMPER TANKER/ TENDER

Take two of the toughest fire apparatus on the market and combine them, and you get the ultimate in firefighting vehicles. Toyne Pumper Tankers have the versatility, muscle and flexibility to take on any challenge.

WILDLAND

Designed for the rugged terrain of the American wilderness, Toyne's Wildland and Urban interface fire trucks provide both form and function.

PRV

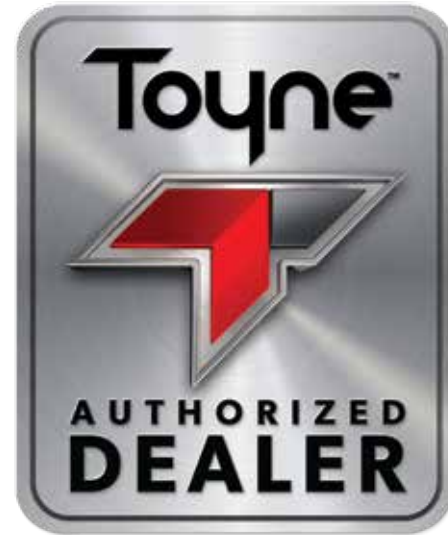

Necessity meets efficiency. The Toyne PRV (Priority Response Vehicle) has been designed to not only be the first apparatus on the scene, but to also allow you to choose your pump panel location.

TANKER/TENDER

Toyne constructs Tankers for optimum maneuverability with a large carrying capacity. Add in the ability for small team operability, and you have a fire truck that brings all the water you need to the scene.

RESCUE

Whether you need a vehicle for rescue operations, or another specific emergency response, Toyne will manufacture rescue trucks to your specifications. With the space and features you need at your fingertips, your department will be well-equipped to accomplish the task at hand.

SLIDE-IN SKID UNITS BUILD YOUR OWN

TANK

Made with polypropylene to assure long life and durability.

Truck bed size: (choose one)

- 78" X 48" (short bed)
- 96" X 48" (long bed)

Design: (choose one)

- Tank box only
- Slide-in platform
- Slide-in platform with forklift slots

Size: (choose one)

- 200 Gallons
- 300 Gallons
- 400 Gallons

Foam tank size: (choose one)

- 5 Gallons
- 10 Gallons
- 20 Gallons

PUMP

CET skid mount pump with control panel (choose one)

- 20hp mid-range pump Honda motor
- 20hp mid-range pump Kohler motor
- 20hp high volume pump Honda motor

MANIFOLD

Stainless steel with stainless steel fittings, caps/adapters are Kochek black hardcoat finish

Includes: 1" valve and cap for discharge, 1" valve for return, 1" valve for hose reel, 1.5" Valve and cap for discharge

INLET

Includes Trident 2.5" tank-to-pump valve

Select if desired: Trident 2.5" drafting valve with cap

HOSE REEL WITH BOOSTER HOSE

Electric rewind included, 300# red booster hose

Hose reel manufacturer: (choose one)

- Steel Eagle (SD made)
- Hannay

Quantity of hose reels: (choose one)

- One
- Two

Hose reel rollers: (choose one)

- One highside roller
- Two highside rollers
- One 4-side roller
- One lowside roller
- Two lowside rollers

Hose length: (choose one)

- 3/4" X 150'
- 1" X 100'

FOAM SYSTEM

Only needed if foam cell was selected from tank options above.

Foam system type: (choose one)

- Scotty 4171
- Waterous Fire Troll

**SCOTTY®
"THROUGH-THE-
PUMP" FOAM
EDUCTOR & MIXER**

Educts foam concentrate into hose lines through a pump's suction and discharge sides. Will educt concentrates at percentages of 0% to 3.75% at flow rates from 15 to 125 GPM at 100 PSI. Maximum operating pressure of 300 PSI. Includes an 18" pressure hose and a 48" foam pickup hose.

Item #	Price
4171	\$511.00
4171KIT	\$737.00

Item #	Price
MULTIPLE OPTIONS	Price varies

**FRC FOAMPRO®
CLASS A FOAM:
1600 SERIES**

The 1600 series is available in two models, differing only in capacity. Each system includes a Hypro twin plunger pump and DC (12 or 24 volt) motor assembly. Also included is a panel-mounted operator control unit with instructions, flowmeter (1-1/2" or 2"), strainer, foam injection check valve, complete shielded cable set and RFI/EMI suppression kit.

Item #	Price
S107-1600/1.5M	\$4,984.00

**FRC TANKVISION
PRO 300**

The TankVision Pro uses a pressure sensor to sense the amount of liquid in the tank and can be calibrated to accurately display the volume in tanks of all shapes and sizes.

- More accurate tank level display
- Fractional scale standard, also available with percentage scale
- Programmable brightness control
- The TankVision Pro is available for water, class A foam, and class B foam tanks. Each display has a distinctive color and style.

**WATEROUS
FIRE TROLL
MODEL FT150**

The Waterous Fire Troll Foam Proportioning System is an easy to operate system that can be inserted in the plumbing between the pump outlet and the live reel or other discharge points on the fire engine or can be inserted in a hose lay at any location.

Item #	Price
83437	\$1,317.00

**WATEROUS
AQUIS™ 1.5 FOAM
PROPORTIONER**

Consists of an electric motor, positive displacement triplex plunger pump and control box mounted on a bracket. Electric Motor: 1/3 HP (.25 kW) 12 or 24 volt. Pump Rating: 1.5 GPM @ 150 psi (5.68 L/min @ 10 bar) with intermittent operating pressures up to 450 psi (31 bar).

Item #	Price
83620-1A	\$5,134.00

THUNDER STRUCK BUMPERS

While enhancing the durability of your vehicle, Thunder Struck Bumpers' products are specifically built to withstand the harshest conditions, and to incorporate accessories needed in your industry

Options Available:

- Speaker Mounts
- 2" Front Receiver Hitch
- Winch Mount
- Wheel Flares
- Emergency Light Mounts
- Front Monitor Deck
- Variety of Powder Coat Finishes

Item #	Price
MULTIPLE OPTIONS	Price varies

COPOLYMER POLYPROPYLENE TANKS

The new and efficient smooth rectangular design gives the tank a slim profile and allows for more water in the same amount of space as other tanks without compromising structural integrity. The exclusive NFPA compliant removable bolt-on lid gives you access to each individual tank compartment, and enables welders to produce 'double welded' seams. This offers an extra level of protection against leaks. It also allows for easier lid removal while the tank is still installed, requiring only top access for lid removal.

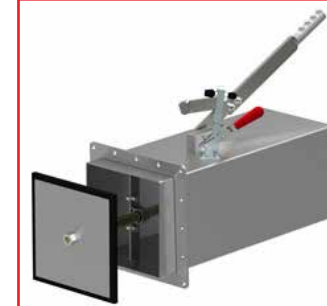

Standard Features:

- 3" suction with internal sump
- 1 1/2" refill
- 3/4" drain
- 1/2" foam suction
- Lifting point for vertical install
- Color coded fill towers with screens
- Water and foam level gauges
- 1 1/2" mounting tabs front and rear

Standard Sizes with or without foam cell:

- 200 gallons 48" W x 60" L footprint
- 250 gallons 48" W x 60" L footprint
- 300 gallons 48" W x 60" L footprint
- 400 gallons 48" W x 60" L footprint
- 500 gallons 48" W x 60" L footprint
- Custom

- P6 DURAHEM™ LEG HEMS*** (PENDING)
Ultra-resistant Aramid-coated piping protects cuff from abrasion, preserving stitching, prolonging garment life.

*Available as an option [5]

MORNING PRIDE TAILS

Morning Pride® TAILS™ have been re-engineered using advanced patterning technology to provide a better fit, new features, and allow more range of motion and protection. The new Honeywell Morning Pride® TAILS™ have added new ergonomic and safety refinements. They retain the classic features and benefits of the original that you probably wear, but have been re-engineered to provide a better fit, new features, and allow more range of motion and protection.

MORNING PRIDE PRO FIT PANT

Take comfort to the next level with the new Morning Pride® Pro Fit Pant. This new design combines the best of both worlds – the tailored professional fit you have come to expect from Morning Pride, along with improved mobility through a more modern fit. It's still a Morning Pride pant, so you can trust the high quality and durability, and of course find a rich selection of optional features.

The innovation on the Pro Fit pant isn't just that we lowered the front to sit at the hips, for the most preferred fit today. We also realigned the rest of the pant for a less bulky crotch, a properly aligned knee position that eliminates knee roll, and reduced cuff retraction. You'll feel the difference in the ease of movement, eliminating stress and making your job easier.

The Morning Pride Pro Fit is available in all fabric composites, with most options offered in the current Morning Pride TAILS line. The base garment comes standard with the following:

- Kevlar®-lined bellows pockets with 3:1 hook and pile, and easy grip
- Half-angle cuffs with Ara-shield® trim
- Narrow fly with hook and pile, and reverse hook on tab
- Take-up straps

Sizing kits are available to ensure the best fit and comfort.

COVERT ARMOR F1 UNIVERSAL FIRE CARRIER

The F1 Universal Fire Carrier is the complete solution for the most demanding conditions. The F1 is designed for Fire and EMS first responder personnel as a one-size-fits-all, alleviating the need to ensure you have a properly sized vest that fits if the situation warrants.

- F1 Fire Carrier (Carrier Only) - BLK, CYT, RED, NVY, DNVY, RYLB, YEL size: One
- Boxer Level IIIA NIJ 0101.06 certified ballistic armor panels (set), type: F1 FIRE CARRIER, size: One

UL® Dual Certified to current NFPA 1977 & 1975 Specifications

NORTHERN DIVER INFLATABLE RAPID DEPLOYMENT RAFT

The RR5 Rapid Deployment Raft is perfect for fast response and ice rescue. The raft surrounds one or more rescuers in an ultra buoyant and protective inflated perimeter. The RR5 allows a rescuer or rescue team to quickly reach a victim and safely retrieve them from the ice or a cold water rescue scene.

The rescuer or rescue team can easily carry the RR5 to the edge of the ice, step into the craft, and run out across the ice to reach a victim. While on the ice, they are protected from falling through a fracture into the water. In a combination ice and open water situation, the RR5 can be paddled across open water or broken ice and water by one or two rescue technicians. Perfect for rapid response ice rescue equipment and should be part of every rescue responder kit.

NORTHERN DIVER ARCTIC SURVIVOR EVO PRO 5 PFD

Tested to EN 12402-5:2006 & 12402-6:2006

HOT SHIELD® HS-2

The HS-2 is constructed of multiple layers of CarbonX brand fabrics. Designed by firefighters for maximum protection against radiant heat & direct flame, with some respiratory relief through N-95 filtration. Packaged with (1) one N-95 activated carbon nuisance level respirator filter with exhalation valve. One size fits all. One year warranty.

Item #	Price
HS-2	\$85.00

HOT SHIELD® UB-V2

The Ultimate Bandanna from is a nearly 100% fire-proof, twin layer, face mask designed by firefighters for wildland firefighting. Made of CarbonX fabric, the only inherently non-flammable fabric in the world. Mask fastens behind neck and can hang below the face until ready to deploy. Integral nose pinch bar for performance & comfort. Light, small and easily donned. Easy breathing. Can be laundered or washed by hand. Not designed for use with a filter. One size fits all. One year warranty.

Item #	Price
UB-V2	\$65.00

HOT SHIELD® WEB CASE CARRY POUCH

Stores any model Hot Shield when not in use, allowing for quick access when needed (similar to a SCBA facemask pouch on a turnout coat). Plenty of extra room for spare filter, goggles, etc. Made of tough Nylon Cordura 600 denier with 2 way zippers. Measures approximately 9" wide at top, 11" wide at bottom and expands to over 3" thick inside. Made in USA.

Item #	Price
WC-1	\$18.00

HOT SHIELD® WILDLAND MASK FILTER

N-95, NIOSH certified particulate filters with exhalation valve. Steam activated carbon sandwiched by cotton media filtration cloth with exhalation valve. Replacement for use with model HS-2 Wildland FF Face Mask. Does not block fire gases, including carbon monoxide; particulate protection & nuisance vapors only. 10 filters per box.

LIGHTNING X VALUE STEP-IN TURNOUT GEAR BAG

Designed to give you the best value without sacrificing quality. The Value Bags include nearly all of the same features as the deluxe gear bags with many color choices and models.

Item #	Price
LXFB40	\$66.99

LIGHTNING X PREMIUM 3XL STEP-IN GEAR BAG

Large enough to hold all of your turnout gear, helmet, SCBA mask, jumpsuit and other items all while being rugged enough to withstand the abuse that firemen are known to inflict on their gear.

Item #	Price
LXFB10DC	\$104.99

LIGHTNING X QUAD-VENT TURNOUT GEAR BAG

Uses Quad-Vent Technology that features four uniquely shaped mesh vents located at each corner of the turnout gear compartment to promote cross ventilation. This keeps your gear fresh and helps prevent mildew from forming. The Quad-Vent bag is large enough to hold all of your gear, boots and helmet comfortably – without being so big that it becomes cumbersome to carry around.

Colors: Red, Black, Pink, Fluorescent Yellow

Item #	Price
LXFB45	\$79.99

LIGHTNING X PREMIUM TURNOUT GEAR BAG

A rigid back and bottom prevent “sagging” and every single stress point is reinforced, double stitched and bar tacked. It has large, partially recessed wheels and a luggage-style retractable handle that stows away into a zippered compartment when not in use. The back and bottom are covered with abrasion resistant material and all of the edges have cording to protect the fabric from wear and tear.

Colors: Red, Black, Pink,

Item #	Price
LXFB60	\$199.99

LIGHTNING X VALUE GLOVE STRAP

Our value glove straps are great for securing your fire gloves to a convenient place on your turnout gear instead of having to ball them up in your pockets.

- Made of heavy-duty nylon.
- High-quality snap hook for attachment.
- Hook and Loop closure to secure gloves.
- Embroidered logo.

Item #	Price
LXFGS	\$6.59

LIGHTNING X HEAVY-DUTY GLOVE STRAP

Made of extra wide, heavy-duty ballistic nylon webbing, lime-silver triple trim reflective tape sewn on both sides, super-tough snap hook for attaching to gear, hook and loop closure to secure fire gloves. Velcro extends 4" down each webbing strap which allows for adjustment.

Item #	Price
LXFGS-HTX	\$8.99

LIGHTNING X HEAVY-DUTY QUICK RELEASE KEY CHAIN

The all black swivel metal snap hook attaches to turnout gear, D-ring, belt loop or tool belt. The 1" extra strong ballistic nylon webbing with reflective trim makes it durable and highly visible. The quick release buckle allows for removal of keys without having to remove the strap from your belt loop.

Item #	Price
LXFKC-ADJ	\$9.99

LIGHTNING X HI-VIS REFLECTIVE ZIPPER PULLS

Just thread the key ring through the zipper slider hook and instantly have a bigger and more visible zipper puller on virtually any bag. The base puller is ballistic nylon webbing with fluorescent yellow webbing sewn on top, and a reflective stripe printed along the middle of both sides. Pack of 10.

Item #	Price
LXZP10-FY	\$10.99

LIGHTNING X SCBA MASK BAG WITH ANTI-SCRATCH LINING

Designed to hold any modern-style SCBA face piece with MMR (mask-mounted regulator), models NFPA 1997 or newer. The bag will hold a face piece with the regulator attached as well as most voice amp and comms devices. The L-shaped side opening allows for quick deployment of the mask when needed.

Colors: Red, Black, Pink, Fluorescent Yellow

Item #	Price
LXFB30	\$24.99

TNT Rescue Systems Storm-Surge series battery-operated extrication tools are powered by the Milwaukee M18 or DeWalt® 20V platforms, making them the longest-running portable rescue tools on the market. The end-user benefits from the price and availability using these OEM non-proprietary batteries. The tools feature an all-new well balanced compact aluminium design, with tool speeds that are unmatched under both loaded and unloaded conditions with no degradation in power. With this new design, it makes it possible to do relief cuts in tight positions where other manufacturers can't. The battery terminal is located on the top of the tool between the carry handle and control valve, providing better protection and safety.

JPZ PRODUCTS RESCUE AUGER

The Rescue Auger is to be used in grain bin/elevator rescue situations. If a person is trapped under grain, the Rescue Auger is used to auger out grain quicker than scooping to quickly free the trapped victim. The Rescue Auger is powered by any power drill. Weighing only 26 lbs, the Rescue Auger can expel grain at 1.5 bushels/minute. Easy to use with a variety of grain - corn, wheat, milo, soybeans. The Rescue Auger is patented - U.S. Pat. No 9139372.

Item #	Price
RESCUE AUGER	\$984.99

JPZ PRODUCTS ROLLER ALL TERRAIN

Used in high and low angle rope rescue, Roller All Terrain (RAT) - patent pending - locks into six different positions. Made with an anodized aluminum frame with aluminum rollers with oil bronze bearings turning on 3/4" hardened steel bolts, it can close around objects as small as 3" to an 18" beam. The RAT helps protect your rope and make it safer as you raise/lower and pick off rescue.

Item #	Price
RAT	\$1,452.99

THE GREAT WALL OF RESCUE ADAPTABLE GRAIN ENTRAPMENT RESCUE SYSTEM

A Great Wall system contains six (6) panels, one (1) step, four (4) rescuer platforms and one (1) bag. Additional pieces can be purchased.

Step:

The Insertion Step has two purposes: pressing panels into grain, and assisting a victim with climbing out of the grain.

Pipe:

The pipe is slid through two handholds and acts as a handle for the victim, and also assists in pulling panels out of the grain when the rescue is complete.

Rescuer Platforms:

The included platforms provide a sturdy base for rescue workers to stand on during a grain extrication. Four lightweight 12"x24" poly platforms are included with each rescue set.

Carrying Case:

Dimensions - 62" L x 22" H x 18" W. Keep your Great Wall of Rescue in great condition by storing your entire system in our heavy duty carrying case. Fits up to eight panels. Interior straps keep panels and all accessories secure. Stores upright or laying down.

ROCK-N-RESCUE POSEIDON SERIES LIFELINE

Poseidon Lifeline's unique polyester sheath differentiates it from other static ropes. For this new lifeline, we developed an entirely new approach to rope construction—one that makes for balanced elongation in the core and sheath so that they share the load evenly. This makes the Poseidon Series stronger than other 12.5 mm ropes of similar construction while retaining a small but important amount of elongation.

Item #	Price
MULTIPLE SIZES/COLORS	Price varies

ROCK-N-RESCUE 1 IN NYLON TUBULAR WEBBING

Tubular Webbing is widely used to tie up slings, runners, and harnesses. Rock N Rescue's nylon tubular webbing is manufactured to strict standards ensuring the highest quality. Available in lengths of 25', 50' 100' or a 300' spool.

Item #	Price
MULTIPLE SIZES/COLORS	Price varies

ROCK-N-RESCUE 1 IN FLAT WOVEN NYLON WEBBING

Type 9800 webbing is a flat, woven nylon webbing that is abrasion resistant and offers a high tensile strength. Available by the foot or a 150' spool.

Item #	Price
MULTIPLE SIZES/COLORS	Price varies

ROCK-N-RESCUE GRAND ROPE BAGS

The newly redesigned bag has a wider opening which makes it easier to stuff. Each bag comes with a draw string top closure. Padded shoulder straps offer more comfort when carrying the bag. Top carrying handles for easy loading of bag. Bottom grommet for tying rope through the bag.

ROCK-N-RESCUE PETZL VERTEX® VENT HELMET

The VERTEX VENT helmet is very comfortable, thanks to its six-point textile suspension and CENTERFIT and FLIP&FIT systems. The adjustable-strength chinstrap makes it ideal for both work at height and on the ground. It has ventilation holes with sliding shutters to allow airflow through the helmet. Available in seven colors and two high-visibility versions.

Item #	Price
A010CA03	\$99.95

ROCK-N-RESCUE PETZL I'D LARGE

The I'D L self-braking descender is primarily designed for technical rescue. It has an ergonomic handle that allows comfortable descent control. The integrated anti-panic function and anti-error catch limit the risk of an accident due to user error. The AUTO-LOCK system allows users to position themselves without having to manipulate the handle or tie off the device. Once locked, the rope can be taken up without having to manipulate the handle.

Item #	Price
D020BA00	\$329.95

CMC CARABINERS

ProTech™ aluminum key-lock: Ideal for rescue and rope access, this anodized carabiner's patented key-lock design does not hang up when unclipping from your harness or web. Manual- or auto-lock versions available.

ProSeries® aluminum key-lock: The most advanced NFPA general-use rescue carabiner on the market. Patented. Available in screw-, manual- or auto-lock.

Item #	Price
300165	\$23.00
300253	\$75.00

KROLL™ RES-Q-ME CAR ESCAPE TOOL

This 2-in-1 safety and survival tool allows you to cut a jammed seatbelt and break a tempered side window in your car. Multiple colors to choose from.

CMC LOTUS TECH PACK

The Lotus Tech Pack is a combination backpack and duffel bag that zips open from all sides and lays flat for maximum access to essential equipment.

Item #	Price
441120	\$205.00

TASK FORCE TIPS® RES-Q-RENCH

Folding multi-function spanner wrench.

Item #	Price
SPAN1	\$40.00

CMC RESCUE LITTER HARNESS

Designed for high-angle rescues where minimum weight is important, this harness has legs that adjust with a cam buckle for easily placing the patient in the most comfortable position.

Item #	Price
724131	\$195.00

OPEN DOOR INDUSTRIES WEDGE-IT

- Extremely durable Polycarbonate plastic construction.
- Small enough to fit in a pocket, strong enough to hold open the largest of doors and portable enough to hang on a uniform or trauma kit.

Item #	Price
WEDGE-IT	\$9.00

GLAS-MASTER TOOL KIT

Expedites the removal of all vehicular glass and reduces the risk of trauma to the patient. No other manual tool cuts faster. Use on fiberglass, wood, pleaster, etc. Can be used for underwater rescue.

Item #	Price
GMM-2	\$210.00

CMC HARKEN RIGGERS WINCH 500

Provides the user with a lightweight, CE certified, portable winch mounted to a robust adapter plate

Item #	Price
733510	\$1,995.00

RHYNO WINDSHIELD CUTTER™ BASIC KIT

- RHYNO2.1 14.4 Windshield Cutter™ Tool
- 14.4V 20 Ah Lithium-Ion Battery Pack – Qty 2
- 20-minute SMART Battery Charger
- Cutter blade wrench
- Operators' Manual

Item #	Price
RWC-2.1-BASIC	\$724.99

SERVICE BEFORE AND AFTER THE SALE

Our sales team is available for product demonstrations and training, giving your department hands-on opportunities with equipment before purchase.

Our factory-trained service technicians are available for on-site service of rescue tools and air compressors and SCBA and pump testing. Our team is also available for in-house installation of compressors and fill stations.

ARCTIC 1000 SERIES ENCLOSED COMPRESSOR

3-Stage Arctic Compressor Block Featuring:

- Air Cooled with a High Velocity, 10 Bladed Fan
- Relief Valves on All Stages
- Aluminium Inter Coolers
- Stainless Steel After Cooler
- Interstage and Final Moisture Separators
- Aluminum Crankcase,
- Forged Steel Crankshaft
- Cast Iron Cylinders

- Fully Enclosed Sound
- Dampened Cabinet
- Lift Off Panel Hinges
- Liquid Filled Interstage
- Pressure Gauges
- Moisture/Carbon Monoxide Visual Indicator
- Double Rubber Vibration Isolation
- Automatic Condensate Drain System
- Pressure Switch
- Hour Meter
- Single or Three Phase Electric Motor
- Emergency Stop Push Button

Purification:

- 24,000 Cu. Ft. at 80 degrees Fahrenheit filtration system designed to provide C.G.A. Grade "E" breathing air.
- System uses a dryer bed to remove water in excess of dew point -65 de- grees. (NFPA 1500 standard)
- Activated charcoal and a carbon monoxide catalyst remove remaining contaminants to provide CGA Grade "E" breathing air.

HIGH PRESSURE STORAGE CYLINDERS

- UN DOT high pressure storage cylinders with current 10-year hydrostatic testing cycle
- Readily available in 4500 psi, 5000 psi and 6000 psi

ARCTIC 1000 SERIES OPEN FRAME COMPRESSOR

FEATURES

- Air cooled, 3 stage Arctic Block
- Relief valves on all stages
- Aluminium inter coolers
- Stainless steel after cooler
- High velocity, 10 bladed fan
- Liquid filled final pressure gauge
- Rubber vibration isolation

OPTIONS:

- Magnetic starter with stop/start switch
- Hour meter
- Automatic drain system
- Automatic high pressure shut down
- 16,000 Cu. Ft. filtration capacity
- 24,000 Cu. Ft. filtration capacity
- 460v 3-phase

CONTAINMENT FILL STATION WITH CONTROL PANEL

FEATURES

- One, two, or three tank capacity
- Manual locking bar for safety
- Four inlet connectors from cascade
- Fill hoses include a bleed valve and SCBA fill adapter
- Venting at back and bottom for operator safety
- 4 bank cascade controls
- 2 1/2" gauges for: each cascade cylinder and dfill positions
- 0-6000 PSI input, 0- 6000 PSI output adjustable regulator
- 1 inlet connector from compressor
- 1 auxiliary outlet with valve

SHIELD SOLUTIONS GEAR CLEAN

This wash solution was carefully developed to ensure the safe cleaning of all firefighting turnout gear and PPE. Shield Solutions® Gear Clean - Turnout Gear and PPE Wash meets the recommendations set forth by NFPA 1851, 2014 edition related to detergents used for the cleaning of turnout gear. This laundry soap provides for cleaning of heavily soiled turnout gear and yet is gentle enough for everyday laundry washing needs.

- (4) 1-gallon bottles

Item #	Price
GW401	\$120.00

SHIELD SOLUTIONS BUG CLEAN

This product removes dried on bug remains with minimal scrubbing. Simply spray on and wipe with a micro fiber towel. Product contains no ammonia, solvents or acids and will not damage vehicle surfaces. This product has been tested and is safe for light lenses.

- (4) 1-gallon bottles

Item #	Price
BW401	\$80.00

SHIELD SOLUTIONS TANK SAVER

This liquid forms a thin, protective film on exposed metal surfaces to inhibit the development of rust and corrosion. Its nontoxic and odorless formula protects all metals. It does not contain chromates or heavy metals, and it won't leave behind a residue so treated tanks can be used for potable water without rinsing or cleaning.

Item #	Price
TS101	\$24.75
TS401 (case)	\$88.75

**ANSUL® SENTRY

**FLIR® K2 THERMAL
IMAGING CAMERA
KIT**

3" LCD clearly displays luminous 160 x 120 thermal images to help you maneuver more confidently and strategically under the harshest conditions. The K2 uses FLIR's patented MSX™ Scene Enhancement technology that embosses key details from the built-in visible camera onto thermal images, providing you with the extra perspective to help you stay oriented and safer while saving others. Set the K2 to one of seven different thermal imaging modes depending on the primary use of the camera; switch between them using FLIR Tools software.

Kit Includes: Thermal Imaging Camera (TIC), (2) Li-Ion Batteries, Tabletop Charger with Power Supply, USB Cable, FLIR Tools Software (via download), Documents.

Item #	Price
TFLK2	\$1,539.00

**FLIR® K55 THERMAL
IMAGING CAMERA
KIT**

Clear and crisp thermal images with FSX™ Flexible Scene Enhancement. FSX enhances thermal images through real-time digital processing inside the camera. The result is an ultra-sharp image that shows extraordinary structural, edge and other instantly-recognizable detail. An intuitive and simple user interface allows you to focus on the job at hand. FLIR K55 cameras can be controlled by 3 large buttons ideal for a gloved firefighter's hand.

Kit Includes: Hard Case, Thermal Imaging Camera (TIC), (2) Li-Ion Batteries, Tabletop Charger with Power Supply, Retractable Lanyard, Neck Strap, USB Cable, FLIR Tools Software (via download), Documents.

Item #	Price
TFLK55	\$6,599.00

TFLK65	\$7,699.00

SENSIT® HXG-3

This combustible gas detector has a precise tick rate control to assist in locating those hard to find leaks, a digital display that reads both concentrations of LEL and parts-per-million of the combustible gas sensed. Warning LED's and audible alarms alert the operator of impending hazards. A push button data-logging feature allows you to print out the results of a gas leak test and calibration data to an optional printer or PC.

- Instantaneous response
- 10 PPM sensitivity
- Easy one-hand operation

SENSIT® GOLD

A portable gas leak detector and multi-gas confined space monitor in one user-friendly instrument. As an investigative tool, SENSIT® GOLD LEL sensor is designed to find the source of combustible gas leaks fast. Additional sensors provide personal protection from hazardous gas conditions. Displays up to four gases simultaneously:

- LEL (PPM optional)
- Oxygen - O2
- Carbon Monoxide - CO
- Hydrogen Sulfide - H2S
- Hydrogen Cyanide - HCN (optional)

SENSIT® P100

Clip on, portable, personal single gas monitor. Detects hazardous levels of carbon monoxide, hydrogen sulfide, oxygen or hydrogen cyanide. The SENSIT® P100 hand-held detector has high and low alarm levels through audio, visual and vibratory warnings. TWA and STEL alarms are also included, as well as alarm-event data logging.

- Easy to use - one button operation
- Serviceable sensors
- Easy calibration

SENSIT® P400

The P400 can be configured with 1 to 5 sensors. Optional, Immediate Detection System (IDS) provides early warning to changes in gas concentrations.

- Audible Alarm – 3 Tone
- Visual Alarm – 360° View
- Vibration Alarm
- STEL and TWA Alarms

STREAMLIGHT® VANTAGE® 180

Helmet Mounted, Right Angle Firefighter LED Flashlight

- 250 lumens
- 3 uses in one light: Helmet Mounted | Right-Angle Light | Handheld Flashlight
- Uses one rechargeable Streamlight SL-B26™ protected Li-Ion USB rechargeable battery pack or two CR123A lithium batteries
- Integrated safety circuit protects battery from overcharge/overdischarge

Item #	Price
88901 (orange)	\$96.00
88903 (black)	\$96.00

STREAMLIGHT® VANTAGE®

Shock-Proof, Helmet Mounted LED Light

- Lightweight, compact design easily attaches/detaches above or below brim on fire helmets, industrial helmets and hard hats
- Delivers 115 lumens; 167 meter beam distance; runs 6 hours
- Features a taillight LED so you can be seen in thick smoke
- Tighten clamp with your fingers - no tools necessary!

Item #	Price
69140	\$153.00

STREAMLIGHT® VANTAGE® II

Lightweight and Durable Fire Helmet and Hard Hat Light

- High and low modes: High: 350 lumens; 118m beam; runs 2.25 hours Low: 135 lumens; 80m beam; runs 5 hours
- Safety features include a blue taillight LED so you can be seen even from behind; taillight can be configured to flash or be turned off
- Large push button switch for easy on/off, even with a gloved hand

Item #	Price
69331	\$112.00

STREAMLIGHT® FIRE VULCAN®

Rechargeable Firefighting LED Lantern

- Output: High: 180 lumens; 566m beam distance; runs 5 hours Low: 80 lumens; runs 10 hours
- Lightweight, waterproof lantern with a bright beam of light that reaches long distances
- Ultra-bright blue taillight LEDs make certain you can be seen even in thick smoke
- Standard or Vehicle Mount System

Item #	Price
44450	\$238.00
44451	\$223.00

STREAMLIGHT® E-SPOT® LITEBOX®

540 Lumen Rechargeable Spot Beam Lantern

- Durable and portable lantern with 469 meter beam distance
- Choose high mode for 540 lumens or low mode for longer runtime (15 hrs)
- IPX4 rated for water-resistance
- Optional direct wire vehicle mountable rack

Item #	Price
45856	\$184.00

STREAMLIGHT® WAYPOINT®

Pistol-grip Spotlight for Long Distance Illumination with 550 Lumens

- Lightweight, pistol-grip spotlight features a 625 meter beam distance
- Alkaline powered (4 "C" batteries)
- High/Low/Emergency Signal modes
- Integrated stand for scene lighting

Item #	Price
44900	\$76.00

STREAMLIGHT® KNUCKLEHEAD® FLOOD

Lightweight, Multi-Purpose Work Light with Articulating Head

- Versatile work light with smooth flood pattern (up to 200 lumens) to illuminate your entire work area
- Rechargeable and Alkaline models available
- Magnet allows for hands-free use
- Features a 210 degree articulating head that rotates 360 degrees

Item #	Price
90651	\$147.00

STREAMLIGHT® SURVIVOR®

Safety-Rated Firefighter's Right Angle Light

- Low-profile bezel that doesn't interfere with gear and equipment. It to gear and also has a D-ring so your light hangs forward.
- Available in Rechargeable and Alkaline models
- LED technology with four lighting modes:
 - High for a super-bright beam that pierces through smoke
 - Low for bright light and longer run time
 - Flash for signaling
 - Moonlight mode provides low-level lighting for battery conservation

**COMMAND LIGHT
CL SERIES 6-HEAD
LED FRC SPECTRA
TOWER**

The CL Series lineup features Command Light's largest light towers for sale with a reach up to 11' from its base. These units are designed for large apparatus and are manufactured using aircraft-grade aluminum alloy to reduce weight while adding strength, making them the strongest mobile light towers on the market. These towers can rotate 360 degrees and tilt, raise and lower with ease to mitigate shadows in all types of situations. Unlike truck-mounted perimeter LEDs, this gives crews the ability to direct all of the usable light. These towers can even be angled to overhang the vehicle to provide operable light near the side of the apparatus.

**COMMAND LIGHT
KL SERIES 4-HEAD
LED FRC SPECTRA
TOWER**

The Knight Series delivers a reach of nearly 7.5' from its base. These towers are manufactured using aircraft-grade aluminum for lightweight strength, while their mid-size footprint makes them ideal for apparatus with limited space, making them a favorite among mobile lighting towers. The Knight Light can rotate 360 degrees and tilt, raise and lower with ease to direct scene lighting. Unlike truck-mounted perimeter LEDs, this gives crews the ability to elevate all of the usable light.

**COMMAND LIGHT
TRIDENT TRIPOD**

Looking for a mobile light source? Command Light continues to elevate scene lighting, this time revolutionizing the tripod lighting market with the introduction of the all-NEW Trident Tripod Light, the only tripod of its kind that lets departments choose their power source, plus their favorite firefighter LED. Pair AC Power, Truck 12V DC or one of four different non-proprietary battery options with Akron Revels, FRC Spectras, FireTech Helios, Whelen PioneerPlus, Fenix Arrow Stick or a Federal Message Bar.

**FRC SPECTRA LED
TWIST-LOCK SIDE
MOUNT PUSH/UP
POLES**

The Side Mount Push-Up pole has an outer tube that qualifies as an NFPA compliant handrail. This grab-handle is grooved to provide a secure grip even when wearing gloves. The standard outer tube is 20" long. The pole is raised from the bottom by pushing it up with the knurled handle.

- LED Scenelgt, SPECTRA, 120VAC 20k lm, SM, psh/up
